Hey and welcome to yet another edition of Numbers & Oddities. Don't forget to check the website every now and then for new recordings and updated profiles. I'd like to thank all the contributors especially JPL, HFD and Danix for the large amount of logs. Like last month I'd like to start with a stroll down memory lane.

In the early 1990's a station similar to M21 transmitted on 5416 kHz.

It sent the following QRV message in 50bd RTTY:

VV99+1804+0+++++

The time string was UTC+1.

It belonged to the Russian forces in Eastern Germany or the East German forces.

Transcript on the right.

```

During the Crimea crisis there was a lot of intelligence activity in the range 10250-10257 kHz. On September 11th similar activity popped up. Logged partly or entirely by Avare, Toto, R6MCO and Ary. Here is what was heard.

10250 kHz, 11-09, 0940 UTC, XPA2 MFSK-16/20Bd.

2 messages. Note that the group counts are not correct. The first message has GC 36 which means 39 groups while 40 were sent. The second GC 222 which means 225 groups while 40 were sent.

```

10257 kHz, 11-09, 1019 UTC, E06 in LSB.

Sounds like lots of zero's (dashes) in morse but when you listen carefully you could hear that the morse was the carrier which was "interrupted" by the voice. Both E06 and E07 voices were heard. Possibly a test or a faulty transmission. The text was mostly unreadable. I heard: 44052 02232 74885 770?7 ??577 ???52 55555 74?26 01085 31071 ?0011 ??????

10250 kHz, 11-09, 1523 UTC. Operator chats in USB connected to the earlier activities on this channel.

E17z

10240 kHz, 18-09, 1710 UTC

A very unusual transmission at an unusual time and frequency

274 (R) 2 stops. Restarts 274 (R). Stops.

Restarts. 856 856 30. Stops

Restarts. 856 856 30 30 81623 33878 89989 48557 31481 46385 34224 3782 30698 3069. Stops during repeat.

Restarts at 1720 UTC: 274 (R) 31481 46385 34224 33782 30698 35423 35844 41028 95477 47714 45124 91243 30383 38095 84978 35325 92141 43391 33722 33053 34379 48977 45437 52849 44186 36398 856 856 30 30 00000

8118 kHz, 18-09, 1734 UTC

Test tone followed by "274", so a repeat of 1710 UTC was expected. At 1738 UTC "274", after a few repeats off and carrier down, so no repeat.

GD sent me a note in which he mentions a transmission from April 2003. The call for that one was 274 with a 20 group message. It had the same problems as well cutting off half way through the message and starting the call 274 again. At that time it was a male voice. That is odd !!!

V02a

Dirección General de Inteligencia

V02a was heard twice in September.

9065 kHz, 01-9, 0800 UTC Tuning at 0752z then into V02a YL/SS 5FGs

7554 kHz, 11-9, 2004 UTC YL/SS w/5F grps in LSB

V07

Token noticed that in September, when the transmitter first comes online, about half an hour before the first transmission, the signal has come up in AM and with music for a few seconds. The music has been in Russian and could be from the Voice of Russia. Later, when the signal shifts to the second frequency, it again comes up in AM for a few seconds. The AM signal is always about 1 kHz lower than the frequency for V07. On 28 Sept, Token recorded the transmission and has put it on his Youtube channel: <https://www.youtube.com/watch?v=uFT5y17f1sU>

The station was heard on 8046 kHz on 07-09, 0950 and 1634 UTC

11-09, 0703 UTC, 13-9, 0710 UTC, 16-9, 1530 UTC

V24

I have put together a new schedule for station V24 for the fourth quarter of 2014. Usage is still very sparse, about the same number of time slots in use as 6 months ago. Note that in the last couple of months I have not seen the alternate month (evens and odds) time slots used that were started a couple of years ago.

M94 has still not been seen in well over a year. V24 may be reactivating the long used 5715 kHz frequency, as one transmission was noted on that frequency in the last 2 months, with no others in the previous nine months.

T!
Mojave Desert, California, USA

V24 and M94 schedule, forth quarter, 2014

V24/M94 schedule Version 8.0

See logs section.

M12

The transmission speed seems to depend on the schedule. M12 transmits with a speed of 25 and 30 WPM. Currently 25 WPM appears to be used on these schedules only:

- Monday, 19:00/20/40, 9176/7931/6904kHz (ID 257)
- Tuesday, 13:10/30/50
- Wednesday, 21:00/20/40
- Thursday, 18:00/20/40, 10343/9264/8116kHz (ID 124)
- Saturday, 05:00/20/40 (repeat of Wednesday, 21:00/20/40 with a different ID)
- Saturday, 13:10/30/50

All other schedules are 30 WPM. (source: Danix)

M89

Chinese military

6813 kHz, 15-09, 1420 UTC: M89 voice transmission.
 Logged by JPL. Script by westli. Recording on the N&O website.

Comments by westli:

Funnily formatted number messages with two guys repeating back and forth. Where I can tell the difference, I just used 1- and 2- to identify the speakers. It would make the most sense for gu to be the number 9, which is normally pronounced gou for radio. But I heard a couple of 'gou's, too. So it seems to mean something else. It might be some kind of reference. Like saying the gu is 2. Where I heard gu yao, that would mean that the gu is 1. It's a mystery to me.

1- 70031 gu liang	2- 70031 gu liang gu 731
1- gu 722192	2- (rpts) 7944
1- 794415 gu liang	2- (rpts) 7004
1- 70041 gu liang	2- (rpts) 9626
1- 9026192 *)	2- 9334192 71 7904
1- 7944192	2- (repeats) 7111
1- 71116 gu liang	2- 71116 gu liang 8433
1- 191313 60	
1- gu liang 40	
1- 7541 60	2- 710 gu yao 92221
1- 2533	
1- 7541 432306	2- 75 ge 168
1- 7541 87 7491	2- 87 7491
1- 72 233 33	

*) it's sometimes hard to tell if they are saying 'gu liang' or 92, which is 'gou liang'

UM01 **Unid CQ station**

JP found the CQ station again. We had not heard it for over a month. Not sure if it was off the air or simply not audible due to bad conditions. It is still only audible via the R90 remote receiver in Siberia.

Frequency: 3580 kHz. Sends long zero's

Also heard on 7161 kHz on several days. 7161 kHz is a harmonic of 3580 kHz.

Unid DQPSK/MFSK-16 station

A new system, possibly operated the GRU was reported by Linkz and Antonio and later also by others. The many transmissions probably indicate that they are testing the system.

Schedules: sets of 3 transmissions at xxh00 xxh10 xxh20 or xxh30 xxh40 xxh50

Modes: 2 minutes of idling 1866.65 Bd DQPSK (measured with SA), showing a gap at ~1380Hz followed by 3min 43sec or 4min 43sec or 15min MFSK-16 traffic 16.5Bd / 175Hz or 32.5 Bd / 175 Hz, offset ~1850Hz

RUSSIAN MILITARY TRANSCRIPTS

The Russian military logs were supplied by Eddy, Wolfgang, Antonio, Ary, Tom, Topol, Jim, Nige, JPL

RMv/RNv/RNAv/RAv **Russian military stations**

Frequency: various

Mode: USB / voice

RAv: Gwrapse copied several Russian Air Force stations on 26-09. Recordings are on the N&O website.

11360 kHz: Full network check between the ground stations Korsar, Proselok, Davlenie, Klarnetist, Polis, Balotnoj/Balotnyj (uncertain on exact spelling)

Several Ilyushin planes of Russian naval airforce in contact with ground stations Korsar, Davlenie and Priselok on 11360 USB and one with Priboj on 11354 USB.

Flight ID 70864 w/ ground station Priboj

Ground stations Korsar and Priselok check signal

Flight ID 70726 calls ground station Davlenie without reply

Flight ID 78803 calls for ground station Korsar

Flight ID 78803 calls for ground station Priselok

Flight ID 78809 calls for ground station Korsar
