Numbers & Oddities

a.k.a. The Spooks Newsletter

Edition #222, March 2016

Editor: Ary Boender email: udxf@udxf.nl

Numbers & Oddities <http://www.numbersoddities.nl>

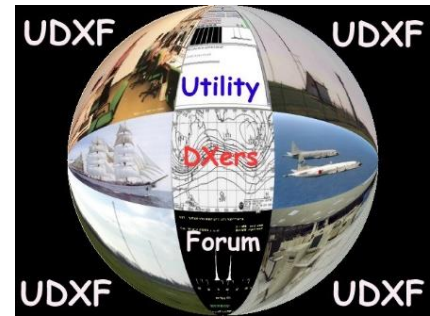

"Numbers & Oddities" a.k.a. the "Spooks Newsletter" is a newsletter for the members of the Utility DXers Forum (UDXF), the Spooks mailing list, HF Underground and everyone else who is interested in Numbers Stations.

"Numbers & Oddities" covers the fascinating world of Numbers Stations and other odd radio signals on shortwave.

Welcome to yet another edition of Numbers & Oddities. We begin this edition with several interesting news items and links.

UTILITY DXERS FORUM – UDXF 10th anniversary

In March we celebrated the 10th anniversary of the Utility DXers Forum – UDXF. I started UDXF on March 28th, 2006. We have over 3600 members and it is still the best forum for Utility Dxers in the world. Thanks for your support and logs during all these years. UDXF and Numbers & Oddities wouldn't exist without your logs and support.

CLOAK & DAGGER

Recently I was interviewed by Shane Harris for the following article in The Daily Beast:

The Stupidly Simple Spy Messages No Computer Could Decode

Every day, hour after hour, the world's spies send top secret information you can easily listen in on.

<http://www.thedailybeast.com/articles/2016/03/06/the-stupidly-simple-spy-messages-no-computer-could-decode.html>

OLX

Priyom published an article written by one of their members, who found a person who helped create Brigita, the device used by OLX. <http://priyom.org/blog/behind-the-device-of-olx> Nice job guys !

AKTENZEICHEN XY

It's an old news item but nevertheless interesting. German television station ZDF airs a program called "Aktenzeichen XY". The aim of the program is to investigate/solve crimes, using the help of the public. At the end of episode 148 (aired on 3 Sept 1982) and beginning of episode 149 (aired on 1 Oct 1982), there was an item about a kidnapped girl named "Nina von Gallwitz".

The police contacted the kidnappers via newspaper Die Welt. It was a coded message using 5-figure groups. Quite unusual. It never happened before. More info about this case:

Aktenzeichen XY 148: <https://www.youtube.com/watch?v=EO39srKMO9g>

Aktenzeichen XY 149: <https://www.youtube.com/watch?v=JpXHXOM3atg>

Items about the used code and the decoded message:

<http://scienceblogs.de/klausis-krypto-kolumne/2016/01/17/entfuhrungsfall-nina-von-gallwitz-so-wurden-die-botschaften-an-die-kidnapper-verschluesselt/>

<http://de.sott.net/article/21312-Rolle-von-verschlussten-Nachrichten-bei-Entfuhrung-der-Nina-von-Gallwitz-einzigartiger-Fall-in-deutscher-Kriminalgeschichte>

Info via Chris, Kristian, and Daniel. Thanks for the tips gentlemen.

NUMBERS STATION NEWS

André reported an unid station that appears to be M76 and Benka found HM02 after quite a long silence. Great job guys !!!
We also have news about the transmitter sites of E25.
The fake/training messages that are regularly sent by E06, G06 and M14 were not heard lately. Are they gone???

E25a Log

6140 kHz, 07-03, 0800 UTC 117 1 [...] Msg x2 117 1... Transmission ends abruptly around 0803z.

E25 tests and oddities

6140 kHz, 09-03, 0926, 0932, 1135, 1138 UTC

Possible carrier noise on 6140 AM, probably failed transmissions.

6140 kHz, 22-03, 0723 UTC

Carrier switching on and off on 6140 kHz.

6140 kHz, 22-03, 0917 UTC

Carrier up on 6140 until 0942z. Many windows 7 sounds during this period, but no actual message sent.

6140/9450 kHz, 24-03, 1130 UTC

Carrier switching on and off with some windows 7 sounds.

6140 kHz, 28-03, 0750, 0803, 0808, 0818 UTC

Carrier switching on and off on 6140 kHz

Qsr711 reports that E25 uses Radio Cairo's Abu Zabal transmitter site. You can hear that it is the same transmitter. Check the recordings on the N&O website. We already knew that E25 also uses Radio Cairo's Abis transmitter site. The logs are submitted by qsr711 and PW2.

Thanks to qsr711 and PW2 for the logs.

I found a very strong carrier on 12160 kHz that started and stopped at exact the same time as S06s was on the air. It had also the same characteristics but there was no transmission on 12160 kHz.

M76

André found M76 after a long silence. Great catch, André and thanks for the logs.

M76 was first heard on 11 December 1998. It had two transmissions, one at 0500 UTC and one at 1750 UTC on 3819 kHz wintertime and 3280 kHz summertime. Most of the format description from 1998 is still valid.

Format:

- 4 chr callsign DE 4 chr callsign (3x) then QTC nnn (serial nr) nn (group count) = 5FGs
- Use of accented letters
- Messages always start with 26310. Messages consist of 5-figure groups but also 5-letters are used (D, R, W, X).
- The last group of the first message is always NNNNN
- There are always more messages. They start with nnn nn = followed by 5FGs. Mostly repeats of old messages
- The last group usually contains some letter X.
- The first group is always 40545 and the second starts with 79.
- The last 3 figures of the message are always 437. Where the last group is 7XXXX, then the previous group will end with a 43.
- The whole sequence is sent twice.
- Transmissions are usually 40-50 mins long.

The station was reported till late 2002, then re-appeared in 2006 and was first heard again in March 2010. It seems to be a cycle, maybe a propagation thing. In the past years it was heard till 16-4-2010, then between 6-1-2011 and 18-3-2011, between 9-3 and 20-3-2012 and no reports after that.

Sample message 1:

IKX1 DE WTDP QTC 66 17 = (17 5FGs)

HM02

Modes: FSK + FSK-Morse

HM02 is back, and Benka found it!! The station was quite active for a while in 2015 but disappeared. Here is the format:

Format:

FSK intro, followed by Morse

Sends single 5-figure groups

Short zero

3FG DK and GC = 5FG message = DK GC (pause) DK GC = repeats message = DK GC 000

Ends with 3 long dashes (000)

DK = Decode Key, GC = Group Count, 3FG = 3-figure group, 5FG = 5-figure group

6261 kHz, 12-03, 0625 UTC, i.p.

ends with 68807 75797 94610 = 284 43 000

6261 kHz, 17-03, 0620 UTC, FSK intro

One of the few errors made by this station occurred today. The 0630 UTC transmission was a null message, which is correct. The 0635 UTC transmission should be the same as 0630 but was instead a repeat of the message sent on 22 and 24-03. The associated E11 transmission was also a null message: 517/00 sent on 10800 kHz at 0645 UTC.
