

## **10-minutes Network (UM10)**

Revision date: 13 December 2016

© 2010-2016 Ary Boender / Utility DXers Forum - UDXF

[www.udxf.nl](http://www.udxf.nl)

This network is possibly located in east Russia or the north east of China. Most reports are coming from Alaska, Japan, and Siberia.

Until we know who they are we'll put the net in the database as "UM10"

Typical are the transmission schedules. They last for 10 minutes. There are two transmissions each hour, the second transmissions is 30 minutes after the first one. Always on two parallel frequencies. The transmissions consist mainly of a callsign and sometimes hand keyed Morse messages. These messages often are three to six 2-digit groups like these: "VVV DE VTID //74// //42// //63//" or "= 83 52 48 ="

The network changes its frequencies and callsigns at least once each month. The transmission times also change at times.

The frequencies and time slots in this list are not necessarily the ones that are being used now but they indicate in what time slots and on what frequencies the station has been heard.

The stations tend to use the same frequency pool over and over. Known frequencies:

2932 3178 3193 3205 3207 3241 3256 3263 3265 3270 3280 3281 3285 3314 3326 3329  
3334 3340 3343 3350 3363 3392 3420 3505 3517 3519 3525 3539 3541 3542 3629 3698  
3700 3705 3709 3718 3753 3772 3780 3782 3802 3809 3835 3860 3861 3956 3958 3975  
4036 4112 4116 4136 4225 4239 4310 5735 5762 5834 5856 5891 6486 6773 6783 6790  
6793 6810 6823 6826 6875 6877 6954 6920 kHz.

**Stations. Sorted on callsign.**
